## Education

---

- 2013      ETH ZURICH  
*PhD Degree in Political Science, October 2013*  
I developed and tested a theoretical model explaining micro-dynamics and macro-outcomes of irregular civil wars.
- 2010      ETH ZURICH  
*Master's Degree in Comparative and International Studies, June 2010*  
With a strong focus on theory and quantitative methodology, I incorporated GIS and advanced statistical techniques into my research. The final thesis demonstrated that geographic conflict zones in civil wars can be predicted reliably ahead of time.
- 2008      UNIVERSITY OF FREIBURG  
*Magister Degree in Anthropology, Computer Science, and Cognitive Science, July 2008*  
My final thesis focused on optimization techniques for empirical Agent-Based Models.

## Academic Positions

---
